

Shipos Documentation (Shopify)

After installing the ShipOS app in your Shopify store, navigate to **Apps > ShipOS**.

Through this app, you can manage:

- Shipments
- Create Shipment
- SMS settings
- Other shipment-related settings

1. Shipment

The Shipment tab allows you to send orders for delivery and manage shipments efficiently.

Sending Orders to Shipment

- Go to **Orders** in the left menu.

*Note: This option is only available if you have an Advanced Shopify or Shopify Plus plan. If you have a basic Shipos App plan, you can use “**Shipping Methods for Order Shipping Point Creation**” to create shipping to the nearest shipping point based on customer's shipping details provided during checkout.*

2. Shipping Methods for Order Shipping Point

- Go to "**Google Maps API Key**" and enter the API key to enable map-based selection and geolocation services.

Shipping Methods for Order Shipping Point Creation

Google Maps API Key

.....

This API key is used for Google Maps integration and geolocation services.

► How to get a Google Maps API Key

Shipping Methods

Free shipping

If the order's shipping method matches the selected method, it will check the order address and find the closest shipping point. Then, we'll create shipping to that point.

Note: It will show a list of shipping methods for orders that were delivered to shipping company using ShipOS.

Update

- Choose a shipping method in the **Shipping Method** field.

If an order's shipping method matches the selected method, ShipOS will check the order address and automatically find the closest shipping point.

Shipping will then be created to that point.

5. Tracker Page

The **Tracker Page** allows you to customize the page where customers track their orders. Follow the steps below to configure it properly for a clear and user-friendly tracking experience.

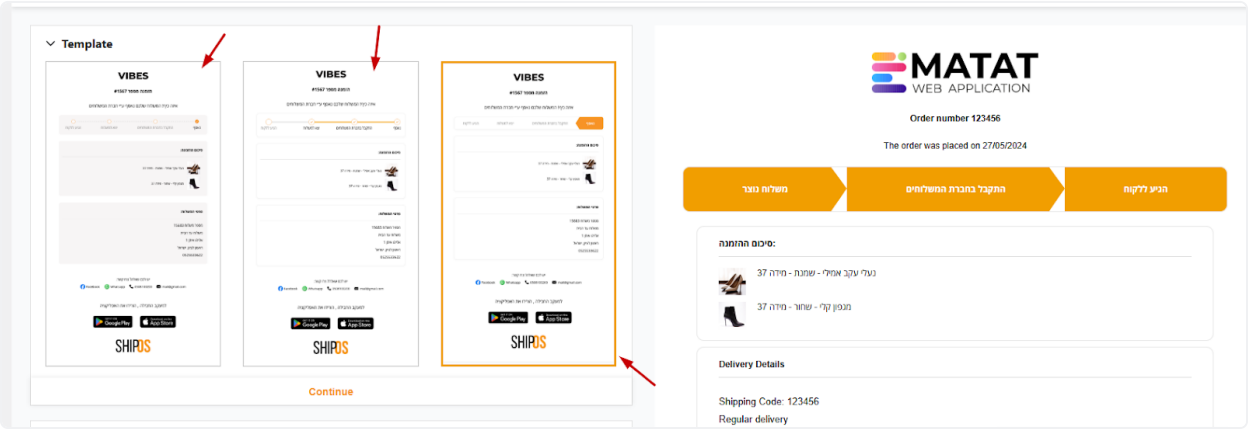

Configure the Tracker Page

- Go to the **Tracker Page tab** inside the ShipOS app.

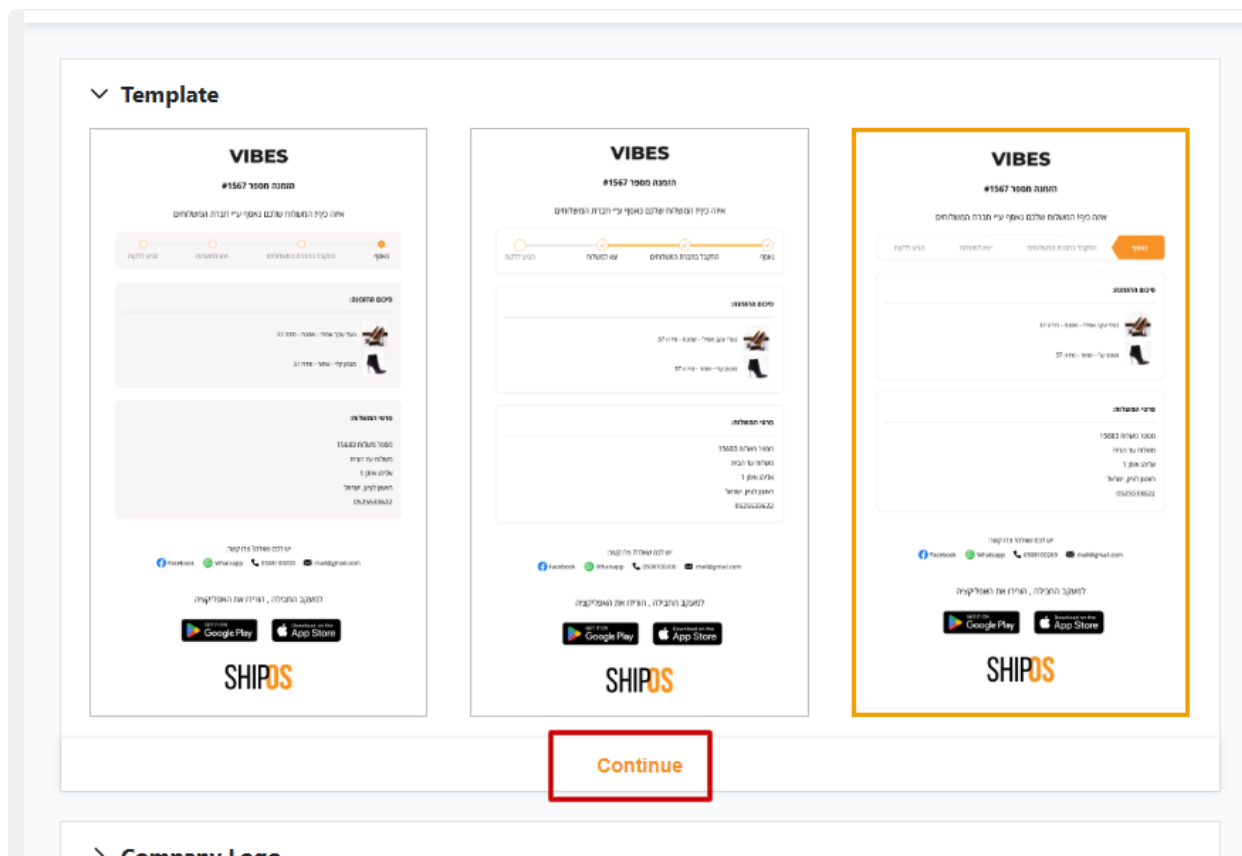

- Choose a Template:** Select a tracking template.

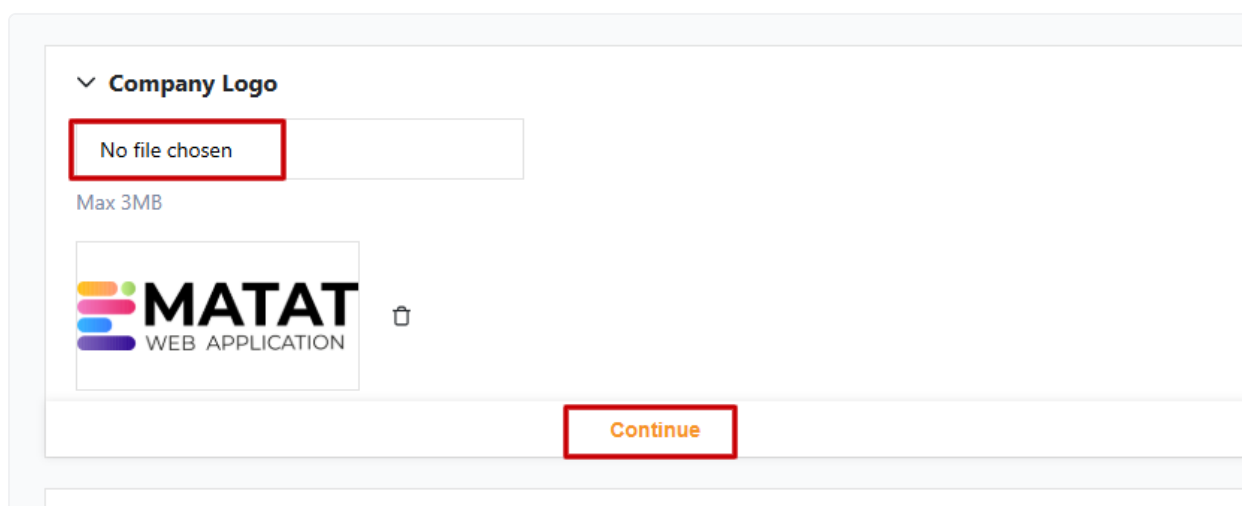

This template determines how and where the tracking details, such as status, courier information, and order items, will be displayed.

- Then, click **Continue**.

- **2. Upload Your Company Logo:** Click the **Company Logo** and upload your store or business logo, and click **Continue**.

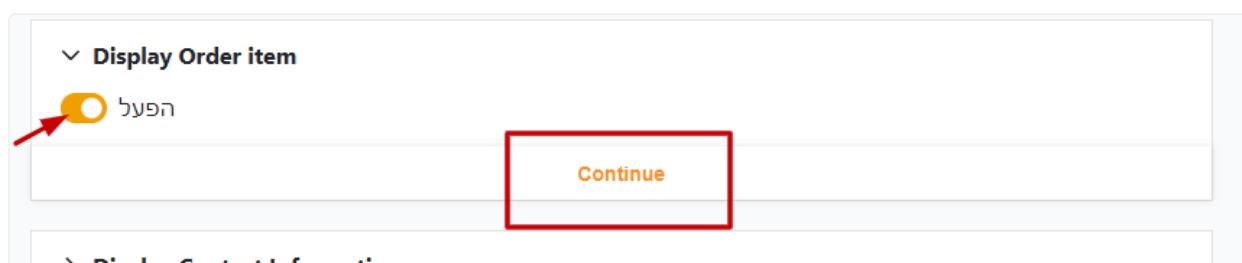

This helps brand your tracker page and makes it look more professional.

- **Configure Display Order Item**

Enable the toggle if you want customers to see the list of ordered items on the tracker page.

Disable the toggle if you don't want to display items.

Click **Continue**.

- **Display Contact Information:** In this section, enter all the contact details you want customers to see on the tracker page:

Email

Phone

WhatsApp Number

Facebook

Instagram

- After filling in the fields, click **Continue**.

▼ **Display Contact Information**

Enter the contact information on the platforms relevant to you or click continue.
